CLIENT FEEDBACK

Robertson's presentation in my U.S. history course illuminated a little-known but crucial part of the American story. Migration from Southeast Asia to the United States has reshaped families, communities, and international relations. My students were fascinated by the history Robertson shared."

-Antonio Ramirez, Ph.D., Associate Professor of History at Elgin Community College

Laura is a siren, she is relentless and very powerful. She is a force to be reckoned with. She's changed my life in so many ways. The most important one is, that she's given me the ability to believe in myself and to believe that the higher power has something in store for me if I just continue to be a servant leader.
